The Wolfe county Democrats met in mass convention at Campton last Saturday for the purpose of electing delegates to the district convention at Estill Springs, July 15, to nominate a candidate for congress from this (the 10th) congressional district. Judge S. S. Taulbee, of Jackson, and Henry L. Godsey, of Washington, D. C., were the only named candidates. Some confusion arose as to the selection of a chairman, as Hon. J. W. Taulbee and Squire John D. Rose were both placed in nomination, and a division and count called for. It was soon seen that the Taulbee faction were in the lead and J. W. Taulbee was chosen chairman. After a short and appropriate address by the chairman the business of the convention was attended to by electing the delegates and instructing for Hon. S. S. Taulbee for first choice and Henry L. Godsey second choice.

\$100 REWARD! \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

July 13. HILDRED.

A Strong Ticket.

The Democratic party has donned its fighting clothes. It scents victory in the air of 1908. It has chosen two capable gladiators to lead the fight. The thunderous demonstrations at Denver differed from those of other years in that they were inspired by harmony and not by strife. The outbursts of enthusiasm were not of the sort manufactured to stampede the delegates to or from any man. They testified rather to the revival of hope, the discarding of differences that had rent the party hopelessly asunder, and to the deep-rooted virility of Democracy.

Mr. Bryan is at the very flood-tide of physical strength and mental vigor. The immaturity that was charged against him in other years can be no longer urged. Never a mean antagonist he has developed and grown through years of travel and study until he has become an adversary worthy of the strongest man's steel. In the present campaign he can not fail to take advantage of a condition that militated largely against his success in 1896. No candidate was ever more prone to put his finger on canker spots than Mr. Bryan. There was much in the Denver-convention to indicate that he has back of him this time an earnest, determined, united, fighting party.

John W. Kern, of Indiana, nominee for the vice presidency, has long been conspicuous in public affairs. While known better in his own state than elsewhere, his fame as a jurist and advocate has spread far through the land. Judge Kern is in the very prime of life. Though defeated for governor of Indiana on two occasions he is very popular in his own state, and is held in high esteem even by his political opponents. Indiana is still regarded as a battle ground in presidential elections, and no man is better fitted to win the suffrages of this doubtful state than Mr. Kern.

The ticket nominated at Denver is a good one. It combines many elements of strength. Both of the candidates are splendidly equipped mentally and physically. Both are excellent campaigners, with a broad knowledge of public affairs. Each is of unimpeachable character. They go forth to battle as unsullied knights, strong in the confidence of those whose champions they are. There is going to be a fight in this year of grace, 1908, and a good one.—Cincinnati Enquirer.

To Him That Asks.

One of the little boys who has recently found a good home thru The Delineator, which is conducting a campaign for the placing of homeless children in good homes, visited the editorial offices, accompanied by his foster-mother. He is a very nice little boy, but he has passed some very bitter experiences for a five-year-old, and in so doing has contracted some bad habits. One of these is that of telling falsehoods. His new mother has talked long and patiently with him and has taught him in his prayers at night to ask the Lord for a good heart. That night Willie prayed earnestly:

"Dear Lord, give me a good heart. Such a fierce old heart I have you know, and I want a good one."

The new mother closed the door softly and wiped her eyes. "We are taking him a year on trial," she says, "but in spite of the fault, I think we shall keep him."

DRINK WAINSCOTT'S POP.

Helen E. Moses Memorial.

Since our last message the Christian Woman's Board of Missions has indeed been bereft. Our hearts are filled with grief for our great leader and honored president. Few women are so gifted and few give themselves so unreservedly as did Helen E. Moses. So close was her walk with God, so completely was she filled with His spirit, so perfect her trust, that her face beamed with a light divine. Her every thought seemed to be for the extension of His kingdom. To the last she planned and prayed to this end. She loved Kentucky and the mountain schools. What shall we do to keep before us her noble example—her high ideals, her consecrated life. Erect a marble shaft? Would this be her will? If she could speak to us, her message would be, "The best monument to the dead is service to the living." The State board, at its regular meeting, May 22d, decided to make the Boys' Dormitory at Hazel Green her monument. It will be dedicated as "The Helen E. Moses Memorial." This, perhaps, is among the last buildings she helped to plan. It will cost several thousand dollars more than our State board expected, the concrete being used instead of a frame building. It will be an enduring monument. Kentucky must not suffer the National Board to bear this added expense. With hearts overflowing with gratitude for such a life as that of Helen E. Moses, shall we not, whether from our abundance or our poverty, bring indeed a free will offering, as a tribute of love to her sacred memory?

Send all offerings for this memorial to Sarah K. Yancey, 420 West Sixth St., Lexington, Ky.

Indiana Men.

For the first time in twenty-four years the Democratic party has turned to Indiana for a candidate on its national ticket. Not since the nomination of Thomas A. Hendricks for vice president in 1884 has the Hoosier state been called upon for a standard bearer. In the ill-starred campaign of 1880, Wm. H. English went down to defeat with Gen. Winfield Scott Hancock, while four years later Hendricks was elected to the chair which was vacated by Democracy at the close of Buchanan's administration. During this same period the Republican party nominated and elected Benjamin Harrison to the presidency in 1888, who was defeated for re-election in 1892 by Grover Cleveland. In 1904 Charles W. Fairbanks was nominated for the vice presidency and elected. The nomination by the Democrats of John W. Kern, of Indianapolis, for the vice presidency, at Denver, shows, apparently, that the leaders again regard Indiana as fighting ground. It may be that the delegates were persuaded that there is luck in an Indiana candidate, inasmuch as only one candidate of either party from that state in more than a quarter of a century went down to defeat.—Cincinnati Enquirer.

Don't Want to Miss a Copy.

Robbins, Ky., July 3, 1908.
Spencer Cooper, Hazel Green, Ky.
Dear Sir: Will you please send me THE HERALD to Robbins as I do not get any mail at Jackson. I have not seen a copy of THE HERALD since May 14.
Yours truly, HARLAN SOUTH,

Thousands Have Kidney

Trouble and Never Suspect it.

Prevalency of Kidney Disease.
Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Hallick Patrick and wife, recently of Morgan county, are now living with Mrs. Patrick's father and mother, Joe Lykins and wife.

H. F. Pieratt, of Richmond, came in Friday and was here until Tuesday attending to some private business and looking into the bank's progress.

John E. Goodwin, the Ezel dentist, is located at the Cecil House, where he will attend to all who have work in his line, and render satisfaction in all cases.

Jim Tom Jones, who has been attending business college at Bowling Green, has accepted a position as stenographer with a firm at Greenville, Miss., where he now is.

This Means You If You Owe Us.

As Dr. Taylor Center intends soon to change his location, we have dissolved partnership for that purpose and he has all of our accounts in his hands for collection since August, 1907. It will be satisfactory for any one owing either of us to settle with him and take his receipt, or when more convenient settle with either. All accounts must be collected within 60 days or we will place them in the hands of a collector. Those who can not pay at once must call and make satisfactory settlement.

DR. G. M. CENTER.
Hazel Green, June 28, 1908.

His Conscience Smote Him.

A letter was received at the J. T. Day store last week from a man now living in Wisconsin, which stated that the writer fifteen years ago stole a suit of clothes, valued at \$10, from the store and that he wanted to pay for same, together with interest. The bill amounted to about \$80, but an answer to his letter told him to send \$20 and a clear receipt would be given. The writer said he was in a hard place at the time he committed the crime, but that he had embraced religion now and wanted to clear the matter up so his conscience would be at ease.

Children's Day at Maytown.

Sunday was Children's day at Maytown and there was fully 700 people in attendance. Dinner on the ground was one of the attractions and people who attended from here say there was enough to feed twice the number in attendance. One lady, Mrs. Ella Childers, begged Mrs. Young and daughter, Miss Lo, to stay a few days and help eat the surplus. The editor of this paper can vouch that Mrs. Childers is a good feeder as he has several times dined at her bountiful board. Dick Childers sure believes in having plenty for his table.

The Campton Convention.

Hon. W. O. Mize left Tuesday to attend the congressional convention at Estill Springs and present the name of his kinsman, Henry L. Godsey, for congressional honors. Mr. Godsey was defeated for the nomination in this county simply because before he entered the race a few politicians had fixed the thing for S. S. Taulbee, of Breathitt. In other words, it was a trade and the fences fixed before Mr. Godsey was mentioned. The action of the convention yesterday may have been more favorable to our young friend, and his many friends here hope it did.

The many friends of Mrs. A. C. Nickell will regret to hear that she grows weaker every day. Dr. Nickell told Our Man About Town Monday that she is no longer able to sit up and she lies in bed all the while. It will be remembered that he started to Louisville with her for the purpose of having an operation performed, but at Winchester she was found to be too weak to stand the operation or even the fatigue of further travel, and he returned home with her.

George Dyer, candidate for jailer of Wolfe county, has the thanks of the editor and his better seven-eighths for a fine mess of beets and beans, and THE HERALD household most thoroughly enjoyed them.

THINKING OF MOVING WEST?

It not then make up your mind and write me for descriptive list of farms in Missouri, Kansas and Oklahoma. All fine, level, productive land that will grow anything under the sun, at prices ranging from \$15 to \$40 an acre, and come where life is made tolerable by easy, profitable farming. Why sweat and fret life away in the vain effort to eke out a mere miserable sustenance from the rock-ribbed, root-laced hillsides as your father and father's father did, when there is so much good land to be had yet available for a mere song? Get out of the rut—break away from the time-worn habit that keeps your nose to the grindstone. All it takes is resolution and a little nerve. Write me, and let me help you to a better condition.

ALL OVER THE HOUSE.

Javelle Water a Labor Saver in the Laundry—Domestic Notes.

Javelle water is sold by most druggists, but it is not difficult to make and is much less expensive when prepared at home. Every laundress should use it, as it is effective in keeping linen and children's dresses free from fruit stains. A small teaspoonful of the fluid added to a boiler of water will assist materially in keeping the clothes white and will not hurt them in the least. Only white goods can be treated this way, however, as javelle water is likely to fade colors.

It is made thus: Place four pounds of washing soda in a large granite or porcelain lined pan and pour over it four quarts of hot water. Stir with a stick until the soda has dissolved, add a pound of chloride of lime and stir until this has dissolved. Allow the liquid to cool in the pan, strain the portion through a thin cloth into wide mouthed jugs or bottles and cork tightly for use. The part that contains the sediment also may be bottled and used for cleaning the sink, kitchen table, etc.

A Fattening Diet.

Dates opened and filled with fresh butter, after the pits have been removed, are one of the most favored diets for thin women. It is said to put fat on the bones, while at the same time invigorating the system through the prevention of indigestion. Literally it is a stuffing process with those who desire to gain flesh in this way. The dates are eaten in as great quantity and as often as possible. The desire for other food is overcome by the preponderance of the dates and butter that are consumed. At the same time there is no restriction against eating whatever other food the appetite craves.

Ironing Tablecloths.

Tablecloths should be ironed on both sides. If they are of good quality, are well moistened and then ironed until dry they will have quite enough stiffness and gloss. If they are worn so thin that they become limp by once using take what starch is left after the other clothes have been starched and dilute it with water enough to rinse the tablecloth. Dry, sprinkle and iron as usual. The thinned starch is just enough to give some body to the soft old linen.

Restoring Black Lace.

Black lace may be restored and cleansed by being rinsed through strong blue water. Ordinary blue is used, but the water must be dark, and if the lace is silky a little paraffin should be added. That is also a tip for silk washing. Rinse it in cold water in which a little paraffin has been poured, or if it has to be stiffened add the paraffin to the gum water. Iron as you do the white lace, between the paper, which never should be used twice.

Candle Night Light.

If in case of sudden illness you have no night light at hand an ordinary candle can be made to do duty as such by lighting a new candle and letting it burn till the top surface is flat. Blow out the candle and sprinkle finely powdered salt all over the flat surface and up to the black part of the wick. This simple method causes the light to be less and also makes the candle burn much longer.

For Chapped Hands.

For chapped hands or face nothing is better than mutton tallow. Melt enough tallow to half fill a small cup, add five drops of camphor spirits and a teaspoonful of glycerin. When cold it will turn out in a ball, which can be used freely on face and hands for the chapped condition.

Testing Drinking Water.

To test water almost fill a clean pint bottle with it and add a half teaspoonful of granulated sugar to it. Cork tightly and keep in a warm place for two days. If at the end of that time the water has become cloudy or milky it is unfit for domestic use.

CHINESE IN MELBOURNE.

Melbourne suffers from the Chinese plague as well as Johannesburg. The Mongolians have practically captured two of the trades of the commonwealth capital—the laundries and the furniture factories. A committee of the Anti-sweating league has just reported the results of its investigations. A large number of the Chinese not only work beyond the statutory hours on week days, but "systematically" work on Sundays as well. The majority "live under conditions which no white worker would find tolerable." Having regard to these conditions, it is almost impossible to enforce the provisions of the factories act. The committee declares that "white workers are subjected to unfair and likely to be wholly destructive pressure from the presence of so many law breaking Chinese in their midst."—London Chronicle.

Britain's Great Naval Strength.

Some official figures published the other day in the London Times by Sir William White indicate that at the present time Great Britain's sea power is more than equal to the combined navies not of any two but of any three other countries in the world. The figures cited by Sir William White cover the six years ended on March 31, 1906, and compare the tonnage of first class battleships built and completed for sea by the United Kingdom, Germany, France and the United States during that period. Great Britain constructed vessels aggregating 348,385 tons, Germany 143,122 tons, the United States 110,210 tons and France 44,285 tons. It is obvious that the aggregate tonnage built during the sexennial term by the three countries last named fell short of the tonnage created in the same time in the United Kingdom by 50,000 tons.—New York Sun.

Check on Cab Charges.

The latest Parisian and London novelty, the self registering clock to tell a person riding in a cab just how much his fare ought to be, has made its appearance in New York, attached to a bright green automobile, with a limousine body, that is generally to be seen in the cab stand in front of the Fifth Avenue hotel. The register is about ten inches across and is connected with the front wheels by a rubber tube, increased in thin wire to strengthen it. The figures on the dial are expressed in our money, and one of the striking things about the apparatus is a little flag of metal, painted a bright red, that bears the sign "Vacant" on it. When the automobile is not in use this sign is to be seen lying down at right angles to the register itself.

Toasting the Feet.

"Got a cold, eh?" said the wise guy. "Well, I suppose everybody has sprung a remedy on you, and I'm not going to be remiss in this duty of friendship. Try this: Every evening as soon as you get home discard shoes and socks and thoroughly toast your feet—fairly scorch them, and put on warm, dry socks and a change of shoes. Warm them for twenty minutes or half an hour. Do the same thing just before you go to bed. No charge for this advice, but it will save you at least \$9 every winter, besides any amount of sneezing and wheezing."—Columbus Dispatch.

Chicago's Table Manners.

I believe that there is not a large city in the world in which the table manners prevailing in the fashionable and high priced restaurants are so execrable as in Chicago. The guest who does not the moment he takes his seat clear his throat and spit right and left on the carpet or the marble floor and then blow his nose like a cornet or a bassoon is the exception. Tom Brown's report when he got back to London that Chicago was a cross between a western mining camp and a civilized city was not so far wrong in some particulars.—Chicago Chronicle.
